Tribune Office, Danville, Ky.

THE TRIBUNE.

FRIDAY,--SEPT. 22, 1854.

Last year there were consumed in
this country, about 705,000,000 pounds
of cane sugar, and 27,000,000 pounds of
maple sugar.

A gentleman just from Illinois
stated that he observed, at one point, water
conveyed by railroad a distance of
forty miles for cows that were suffering
for a drink.

The Crystal Palace at Sydneyham,
England, continues to be visited, it is said
at the rate of 10,000 or 12,000 persons
daily, and the receipts are such as to af-
ford the certainty of a large dividend for
the first year.

The Cincinnati Gazette says that
the young man, Short, who fought a duel
with young Pencock, a few days since,
near Alexandria, Ky., and who was shot
in the left shoulder, died from the effects
of the wound, on Sunday evening last.
Pencock is still at large.

We see from the Chic go papers
that Mr. Willard, the Lieut. Governor of
Indiana, was served in the same manner
as Judge Douglas. He was making a
political speech, but as soon as he intro-
duced the Nebraska question, he was
hounded down by a crowd of rowdies.

The political parties of Maine con-
sist of Fusion Whigs, Anti-fusion Whigs,
Fusion Democrats, Morrill Temperance
Democrats, Nebraska Wild Cat Demo-
crats, Anti-Nebraska Old Line Demo-
crats, Anti-Nebraska Anti-Morrill Demo-
crats, Free Soilers, Fusion Free Soilers,
Hook and Ladder Democrats, and many
others.

A WHEAT GROWING COUNTRY.—It is
estimated that the Canadas will raise the
present season a surplus of 12,000,000
bushels of wheat, which, of course, will
look abroad for a market. By a new re-
ciprocity treaty, provincial grain and
flour come into our market free of duty,
and upon an equal footing with the pro-
ductions of our farmers.

ALL SORTS OF A NEWSPAPER.—The
New York Mirror says with a fund of
half a million of dollars, it would start a
fearfully smart newspaper. "Irving
should have charge of our American lit-
erature; Everett of our politics; Dickens
and Thackeray should be our London
correspondents; Lamartine and Dumas
our Parisian; and Baron Blow-my-nose-
off should send us dispatches from the
seat of war."

The St. Louis Intelligencer learns
from a gentleman extensively engaged in
the pork packing business at Keokuk,
that good crops of corn will be raised in
Iowa, and that he expected to kill as
many hogs the coming as he did the past
season. Four dollars is talked of, but he
is of the opinion that prices will rule be-
low that figure. In many parts of Iowa
the corn crop was never better than it is
this season, and with considerable old in
the cribs the entire supply will not be
much, if any, short of last year's.

POETICAL.

know Nothing Poetry.

The Know Nothings appear to have sprung
up in the far-off regions of Nebraska, as the fol-
lowing original poetry, from the Omaha Arrow
would seem to indicate:

DON'T KNOW.

Who is it moves with silent pace,
With brow serene and smiling face,
Each word and action perfect grace?
"I don't know--do you?"

Whose heart shines forth from kindled eyes,
And listens to oppressions' cries,
And when in danger never flies?
"I don't know--do you?"

Who does not show, by tongue or pen,
What he has learned--where he has been,
And keeps his thoughts to other men?
"I don't know--do you?"

Who, when he sees his country ruled
By men in foreign climes schooled,
Thinks as a freeman he is fooled?
"I don't know--do you?"

Who, when he sees that Popish power
Is gaining foothold every hour,
Feels that a storm begins to lower?
"I don't know--do you?"

Who feels that men born in this land,
And 'gainst oppression dared to stand,
Are just as good as "pauper brand"?
"I don't know--do you?"

There is a short poem of a terribly tragic
nature, and the style written is frightfully clear
and simple.

I saw him bare his throat, and seize
The grim, cold, gleaming steel,
And grimly cut the tempered edge,
He was so soon to feel.

He raised on high the glittering blade;
Then first I found a tongue--
"Hold, madman! stay the frantic deed!"
I cried, and forth I sprung.

He heard me, but he heeded not;
One glance around he gave,
And ere I could arrest his hand,
He had--*begun to slay!*

MISCELLANEOUS.

Scenes in New York City.

Broadway by midnight, or rather at that pe-
riod between midnight and day-dawn, when
silence broods over everything, and the big col-
umns of light issuing from theatres and re-
flectors and from stained glass lamps over their
portals are extinguished, should be seen at least
once by every one who is passing his time in
this city. It is nothing then, for dragging steps
or the clanking of a carriage wheel, or the
quarter-chiming of the Old Trinity, or the distant
fall of an occasional pedestrian, perhaps a
physician returning from the bedside of a pa-
tient, or a faded night editor, who, in his
plodding his weary homeward way, wonders if he
has left any source of information unsearched
that might have furnished gratification to those
who, by every one, are passing his time in
this city. It is nothing then, for dragging steps
or the clanking of a carriage wheel, or the
quarter-chiming of the Old Trinity, or the distant
fall of an occasional pedestrian, perhaps a
physician returning from the bedside of a pa-
tient, or a faded night editor, who, in his
plodding his weary homeward way, wonders if he
has left any source of information unsearched
that might have furnished gratification to those
who, by every one, are passing his time in
this city.

A Know-Nothing Alarm.

The Waterbury Mail tells the following story
about the steady old borough of Kendall's Mills:

Mrs. Soley went to bed precisely at 9 o'clock,
thinking it passing strange that her good man
had not made his appearance just ten minutes
before. Of course he was home in a minute
and a half, or two minutes at furthest, and
so Mrs. Soley felt a lamp burning on the hall
table. There it burnt and burnt--but she must
tell her own story, as she told it next morning
to about thirteen of her neighbors. "I'll be
bound," she said, "that lamp burnt and burnt,
till, as near as I can remember, 'twas well high on
ten o'clock, and that man hadn't come! What
to make out I didn't know nor norn the dead,
but he hadn't come, and he was home in a minute
and a half, or two minutes at furthest, and
so Mrs. Soley felt a lamp burning on the hall
table. There it burnt and burnt--but she must
tell her own story, as she told it next morning
to about thirteen of her neighbors. "I'll be
bound," she said, "that lamp burnt and burnt,
till, as near as I can remember, 'twas well high on
ten o'clock, and that man hadn't come! What
to make out I didn't know nor norn the dead,
but he hadn't come, and he was home in a minute
and a half, or two minutes at furthest, and
so Mrs. Soley felt a lamp burning on the hall
table. There it burnt and burnt--but she must
tell her own story, as she told it next morning
to about thirteen of her neighbors. "I'll be
bound," she said, "that lamp burnt and burnt,
till, as near as I can remember, 'twas well high on
ten o'clock, and that man hadn't come! What
to make out I didn't know nor norn the dead,
but he hadn't come, and he was home in a minute
and a half, or two minutes at furthest, and
so Mrs. Soley felt a lamp burning on the hall
table. There it burnt and burnt--but she must
tell her own story, as she told it next morning

THE TRIBUNE.
FRIDAY, SEPT. 22, 1854.

FOREIGN NEWS.

New York, Sept. 19.—The Atlantic arrived this morning with Liverpool dates to the 6th of September.

The Russian's unconditional refusal of the proposal of the four powers is confirmed.

A cabinet council was held at Vienna immediately on the reception of the reply.

The Austrian and Swedish ministers are expected to leave St. Petersburg.

There is nothing new from the Baltic. Bismarck has not yet been disarmed.

Affairs on the Black Sea and Danube are unchanged.

Prince Albert, the Kings of Portugal and Belgium, are with the Emperor Napoleon at Bologno.

Queen Christina is reported insane from excitement.

The Baltic steamers continue reconnoitering on the coast of Finland.

It is confirmed that the Russians blow up Gustavus.

There is still doubt whether the Black expedition against Sebastopol or Anapa has failed.

There is nothing new from Asia. The Russian Christiania left Madrid under the command of Cavalry.

Her children arrived in England on the 28th.

Constantinople, Aug. 25.—The heavy artillery belonging to the French army has arrived.

All of the Turkish men-of-war vessels on the coast of Asia are put into requisition for Varina.

The Duke of Cambridge is at Vostick still indisposed.

The Russians have captured another vessel and carried her into Sebastopol.

Gen. Gayon is placed in command of the Turkish army in Asia.

Musata Pasha is in disgrace.

The artillery had embarked at Varina, and the troops are preparing to follow.

CRAB ORCHARD FAIR.—The editor of the Baptist Recorder, who attended the late fair at Crab Orchard, says:

We visited the town of Crab Orchard (rather singular name) just as it was crowded with visitors, attracted not only by the medical waters for which it is famed but also by the first annual fair held in its suburbs.

In a beautiful spot, near the town, and in the vicinity of a chalybeate spring, extensive arrangements were made for the display of the different articles and products to be exhibited.

The articles of the ladies, especially the quilts, were extremely beautiful. A silk quilt exhibited by Miss Hawkins, which received the premium, excelled anything we ever before saw.

Jeans, blankets, hose, and other articles of their description, displayed a tact, ingenuity, and industry among the ladies highly commendable.

Of the eatables, preserves, butter, cheese, bread, &c., the managers of the fair appointed, as the very best judges of the articles, a number of preachers to award the premiums.

We were invited to assist in this delightful task; but the splendid array of choice viands appeared to be so tempting, and on the ground of being a poor judge in such matters, we begged to be excused.

We left before the fair was exhibited, but met sheep, cows, and horses that would do credit to any in the world, moving toward the grounds.

PRICE OF POTATOES.—This popular and almost indispensable article of food is destined to command, unless all rigors fall, an extraordinary price throughout the ensuing year.

The crop is generally bright, and in many sections an almost total failure. At this early day, and when there should be an abundance, if ever, prices are relatively higher than they were ever known at this season of the year.

In New York they sell at \$1 75 to \$2; Philadelphia \$1 50 to \$1 75; Richmond \$1 to \$1 50; Pittsburgh \$1 75 to \$2; Cincinnati \$1 50 to \$1 75; Springfield, Ohio, \$1 40; Cleveland \$1 25; Chicago \$1 25; Columbus, Ohio, \$2; Alton, Illinois, \$1 25; Springfield, Illinois, \$1; Peoria, Illinois, \$1 40; St. Louis \$1 to \$1 25 per bushel. Toledo is the cheapest potato market that we know of at the present. At last dates they were selling there for 62¢.

FAIR NEGROES.—The Washington Sentinel, which has been examining the census returns, states that prior to 1833, owing to the more general emancipation which prevailed then than now, there was a greater increase among the free negroes than among the slaves.

From 1833 to 1843, the free negroes fell off 14 per cent.—the increase being but 50 per cent.—(two per cent. per year)—in ten years. From 1843 to 1853 there was a falling off of 8 per cent., and an increase of only 12 per cent., which does not exceed the number of manumitted and escaped slaves.

The Sentinel shows, in contrast to this, that the slaves are increasing in the ratio of 22 per cent. every ten years, and that among 3,224,913 slaves, (the number enumerated in the census of 1850,) there were but 337 free and manumitted, and 311 idiotic and insane free negroes, in a population of 434,495.

SINGULAR FACT IN DEATH STATISTICS.—It appears that the total number of deaths in the cholera year (1849,) for all England and Wales, was 440,339; but in 1850 the number of deaths fell to 363,295, "being not only 77,044 less than in the cholera year, but even less than the number of deaths of the year preceding that of the cholera, by as many as 33,833. *** If we take the deaths of the two years together which preceded the cholera, and strike the mean, and treat the year of the cholera, and the compensating year that follows, in the same manner, we shall find that the four years present nearly the same average. *** So that, in reality, it is found that the aggregate of the four years is taken, either for the whole of England, or for the Metropolis only, that no greater number of people died in those years because of the cholera intervening, than if the cholera had not visited us.—Dr. Granville, in the Medical Times and Gazette.

TELEGRAPHIC.

Pittsburg, Sept. 15, M.

The cholera has broken out in great violence in different parts of the city and vicinity. It is impossible to give the number of cases, but there have been 15 deaths within the past 24 hours. Some well known citizens have been carried off in 3 or 4 hours.

Pittsburg, Sept. 15, P. M.

There were over forty cholera deaths to-day, not included in the noon report. The weather is cool and favorable, with new cases of a milder type.

The Supreme Court adjourned to-day, in consequence of the epidemic.

Pittsburg, Sept. 16.

The weather is clear and pleasant.—There has been 49 deaths from cholera since yesterday with no abatement of the disease.

Pittsburg, Sept. 19, P. M.

There was upwards of 60 deaths from cholera to-day, but new cases have diminished.

The rains this evening, it is to be hoped, will be salutary.

WASHINGTON, Sept. 13.

Considerable excitement was created here by the publication of 500 names, pretending to be a list of members of the Know Nothing Council of the Fourth Ward.

PHILADELPHIA, Sept. 13.

The total number of deaths in this city for the week ending to-day, amounts to two hundred and twenty-six, of which one was from cholera. The city is comparatively healthy.

NEW YORK, Sept. 16.

The total number of deaths in this city for the week ending to-day, amounts to six hundred and seventy-five, of which one hundred and twenty-four were from cholera.

COLUMBIA, Sept. 18.

The number of deaths at Savannah yesterday were twenty-three.

The passengers from Augusta report the yellow fever broke out there violently. The inhabitants are leaving.

The weather is cold here. The thermometer at ninety.

NEW ORLEANS, Sept. 11.

We have dates from Brownsville to the 21st.

We have reports that a battle at Victoria between the insurgents and the government troops lasted three days, when the insurgents finally retired with a small loss. The loss of the government troops is said to be over four hundred.

San Luis Potosi has raised the standard of rebellion, and the insurgents' cause is represented as spreading throughout the country.

NEW ORLEANS, Sept. 13.

Our city has been the scene of terrible riots between the Americans and Irish, and several lives have been lost.

The first outbreak was on Sunday evening, when a number of persons were shot before it was quelled. One of the wounded died early next morning.

On Monday evening riots were renewed with still greater violence. A great many were badly injured.

The rioters again assembled on Tuesday morning, and two more were killed and a large number wounded. Excitement was great, and for fear of more disastrous consequences, the National Guards were ordered out by the mayor.

No further breach of peace has occurred. The excitement to-day has considerably cooled down.

The military will be held in readiness in the event of a renewal of the riot.

WASHINGTON, Sept. 14.—It is whispered about the State Department and in the White House, that dispatches or letters have been received from Mr. Soule, our Minister at Madrid, of an arrangement made with the government of Spain for the purchase of the Island of Cuba.

They came, it is said, by the Africa. There is no particular necessity for my vouching for the statement in these slippery diplomatic times, but my authority is good—the very best—for the whisper, at any rate, there is no mistake about that. What is more, it is said that England and France, and especially the latter, favor the sale from motives of sound international policy. Strange as all this may appear to those who will not believe in the purchase of the Queen of the Antilles, I have an opinion—an individual opinion—that the purchase has been made. But at all events *non verum*. Then I will send further particulars.

BALTIMORE, Sept. 13.

New Orleans papers of Tuesday contain the details of the Mexican news to the 6th.

The Mexican papers claim a great victory over the revolutionists.

The Trait D'Union announces the colonization from France to Mexico as proceeding rapidly. Four vessels have either already arrived or are expected to arrive at Vera Cruz with emigrants from Havre.

Spanish troops had arrived at Vera Cruz. Two thousand Swiss were expected.

Don Senor Angel Turbide, one of the sons of the late liberator, is named as the secretary of the Mexican legation to the United States. His brother, Col. Agustin de Turbide, is appointed as aid-de-camp to Santa Anna.

A decree issued on the 18th ult., suppressed thirteen active squadrons of the army.

A decree issued on the 18th ult., commuted the sentence of death against the insurgent prisoners at Guanajuato to ten years imprisonment, with the exception of Count Bonilla, and those who excited or headed the revolution. The others were to be tried according to existing laws.

The riot at New Orleans originated in a quarrel between citizens and watchmen. The latter are mostly Irish, and the cause was taken up by their countrymen. Irregular fights occurred, in which muskets and pistols were freely used, and kept up the whole of Monday night. The American party assembled in front of the City Hall and marched to the foreign quarter of the city, where the battle raged violently. The accounts in the papers are conflicting.

The fever is increasing at New Orleans. The number of deaths during the week ending on the 16th was 404, of which 184 were of yellow fever.

THE CROPS.—It is about time that the foolish, if not, in some cases, the knavish, craving in regard to crops should have an end. The whole country has been excited to believe that a short crop would be sure to follow the very severe drought which has been experienced in most portions of the country. It does not seem to have been considered that in the great variety of soil and climate of the United States it is absolutely impossible that such a thing as a general failure of the grain crop could take place. Some localities, it is admitted, have not produced so well as usual; others have produced only half a crop; but there are others which have rewarded the farmer nobly. When it is known that a large amount of new land is annually brought into cultivation; that there is likely to be no demand for our breadstuffs in Europe for many months to come; that the most important cereals, wheat and oats, were unusually prolific and good in quality, it ought to satisfy every one that no such thing as famine, or an extraordinary demand for agricultural products, could be experienced in this country. This year, the wheat and oats crops are the most abundant of any ever grown in the United States, and there is an abundance for home consumption and exportation.—The demand on European account, however, will be next to nothing, and when these things are considered, it shows the folly of the panic which it has been attempted to originate. The corn crop, it is now admitted, will be better than was hoped for at one time, and as there is yet a large amount of old corn on hand, we should like to see how some of our people arrive at their calculation that a famine is threatening us. There is no truth in it—certainly the fact is not yet ascertained; and although the prices may be higher than in former years, the supply will be found quite adequate to the demand.—St. Louis Rep.

CORN CROP IN TENNESSEE.—A writer in the Nashville Gazette says of the corn crop:

We have taken some pains to enquire into the matter, and have found it an almost universal thing with farmers to say that they are truly and agreeably disappointed on the examination of their crops, to find them in a far better condition than they expected; and that they were satisfied as far as they were concerned.

We inquired of two or three gentlemen from the western portion of Davidson county relative to the corn crop, and they stated that there would be an average yield of from eight to ten barrels per acre.

We inquired of a gentleman from the northern portion of Wilson county, and he stated that although there would not be a general good crop throughout the county, there would be in his portion of county a very fair crop.

We have been in Summer county for the past two months and have mingled with the farmers of that county to an extensive degree, and they say that although they were somewhat alarmed when the drought became so continued, they had no cause for it now.

That their crops have yielded beyond their expectations. We have seen letters from different portions of this and other States, and we apprehend no danger.

THE WEATHER AND CROPS.—The Russellville Herald of Wednesday says:

The drought still continues in Russellville, and the prospect for rain soon by no means flattering. The few remaining wells and springs that have water in them are getting quite low, and it is now certain that if the drought continues till the meeting of Conference and the Association, and if there be many strangers in town on that occasion, there will be unpleasant and disagreeable times to all present.

During the past week fine rains have fallen in Logan and some of the adjoining counties. Our town was visited with a pleasant shower on Saturday afternoon last, but the wells were not perceptibly benefited by it.

From information received during the past week of intelligent farmers from various sections of the county, there will be fully a half crop of corn raised in Logan the present season. The scarcity is not near as great as we anticipated a few weeks since, though, as we stated on a former occasion, many farmers will not raise enough for home consumption.

The wheat, oats, and hay crops have not been larger for years. The white oak mast is also very good, and we learn that in some neighborhoods it is so fine that many farmers will have to use but little corn in fattening their hogs. All things considered in their true light, we conscientiously believe we are as well off for provisions, both for man and beast, as we were last year, and should reproach ourselves for the continued complaints that have gone up against a wise providence. All hearts should be thankful that the prospect is as rich and abundant as it is, for it is far better than the best of us merit.

TRANSYLVANIA MEDICAL SCHOOL.—We have the pleasure to inform our readers that the vacancy caused by the resignation of Prof. Allen has been filled by the appointment of Dr. Alex. K. Marshall, a gentleman well known in the profession as the possessor of talents of the most brilliant order.—Lexington (Ky) Observer & Reporter.

PROSPECTS IN JAPAN.—It is understood in Washington, that Britain and Holland are to contend with us with much more energy for the commanding influence in connection with the foreign commerce of Japan, than it was thought probable they would essay, not long since. Nevertheless, little apprehension exists here that they will be able to rob us of the legitimate advantage to our superior enterprise as manifested in being first to induce Japan to become a legitimate portion of the commercial world. True, they have a great advantage in their superior experience with eastern affairs and connections with eastern commerce, which will be pushed to their utmost. The Government have, however, doubtless long since taken measures to profit by impressions which we have already made in that quarter, as manifested by Japan's treaty with us. From various circumstances within our own knowledge, we can entertain no fears that our merchants, manufacturers, artisans, and ship owners will fail to be the chief recipients of the benefits to be derived from the trade with Japan.

THE SEASON IN 1755.—A correspondent of the Portland Advertiser furnishes an interesting article upon the drought. He says:

We have amused ourselves recently in looking back to our past annals for seasons of dearth, to find a parallel for "this most unparalleled state of the weather," and many a complaint starts out from the past years through Parson Smith's invaluable journal, to encourage us to hope, almost against hope, that we shall survive the present drought, and again behold the earth smiling in freshness and beauty.

We copy the record of the year 1754, just one hundred years ago, from Parson Smith's journal:

1754, July 1st. "I have no grass growing in my mowing ground, and there is no feed on the neck; the reasons are the open winter, three weeks early drought, and the grasshoppers."

22d. "There is a melancholy drought."

October 26th. "A great storm. The earth is filled with water."

Ninety years ago the following record was made:

1764, June 25th. "It is as melancholy dry a time as ever I saw." July 5th. "As great a drought as in 1749."

August 1st. "Drought awfully continues."

12th. "No feed on the neck for a great while." 16th. "The drought increases."

Now for the usual alteration. August 18th. "Storm of rain." 31st. "Marvelous change of rain, surprising change on the face of the earth." Sept. 24. "The earth has a most beautiful green face."

Oct. 6th. "The grass is better set than in the Spring."

Fifteen of the years between 1722 and 1764 are mentioned on account of the drought that prevailed. The writer closes his communication with the following deduction. He says:

These well attested facts prove, 1st, that we live in an exceedingly dry climate; that we are continually subject to droughts, 2d, that notwithstanding these contingencies, the earth yields to us an abundant supply for our wants and luxuries; that we need patient and faithful husbandry, and perhaps some new and improved modes of culture to meet the peculiar condition of our atmospheric influences, and to counteract them; and 4th, the fertility, nay, the wickedness of constant murmurings and complainings of the dealings of Providence in these particulars which are the results of our peculiar climate, and to which our vegetable kingdom is wisely adapted.

NOTES OF THE INDIANA "FREE BANKS."—The Hattiesburg Plaindealer mentions a note of one of these banks "which bears upon its face unmistakable evidences of our most transparent fraud. It is a note issued by a concern called 'Kentucky Stock Bank,' and the words 'Kentucky and Bank' are printed in large, showy letters, while the word 'Bank' is in letters so small as to be almost imperceptible. Indiana is also printed in very small letters, and is placed on the edge of the note, where one would not be apt to look for it. This is evidently designed to deceive the unsuspecting into the belief that it is Kentucky money, all the banking institutions in this State being sound and in good repute."

It is made payable at Peru, Indiana.

A child was stung on the eye-lid by a wasp, near Wheeling, Va., a few days since, and inflammation of the brain and death ensued within thirty hours.

C. F. MEYER, DEALER IN PIANOS, Music and Musical Instruments, Corner of Main and Mulberry sts. (up stairs), LEXINGTON, KY.

ENTRANCE.—The iron steps on Mulberry street, opposite the Pines Hotel.

(Pianos tuned and repaired as usual. Sept 15, '54

NEW BOOKS, I AM now in receipt of the largest and best assorted stock of School, College, Juvenile, and Miscellaneous BOOKS.

Ever brought to the place. Persons wishing anything in the Book line, will do well to examine before purchasing. I would call attention to my very superior stock of

DRUGS AND MEDICINES, Fancy Articles, Cutlery, Perfumery, Combs, Brushes, &c., all of which will be sold as low as they can be had in this place or elsewhere.

WM. M. STOUT. Sept 15, '54

CLOVE Anodyne Tooth-Ache Drops, a certain cure for Tooth-ache, for sale by WM. M. STOUT.

HOPSTETTER'S Stomach Bitters, for sale by WM. M. STOUT. Sept 15, '54

MILL AND LAND FOR SALE, I WISH to sell my GRIST MILL, on Harrods Run, 4 miles from Danville, at the bridge on the road leading from Danville to the Mouth of Dix River. This road has been surveyed, and will be completed in the course of the next year, and will pass immediately by the Mill. There is attached to the Mill from 30 to 35 Acres of Land, All of it timbered, and part of it good tillable land. I will sell a bargain in this property. This Mill runs 5 or 6 months in the year. I deem it unnecessary to say more in relation to this property, as those who wish to purchase will, of course, call and see it before doing so.

WM. R. MOCK. Sept 15, '54

PHOTOGRAPHIC, HIZE & THOMAS ARE now in this place. They are artists of ten years experience, and will be prepared in a few days to take every style of DAGUERRETYPE, for beauty, depth of tone, and finish, will be equal to any taken by the best artists in the world.

Danville, Sept 8, '54

DRIED PEACHES, an excellent article, for sale at J. C. HEWER'S.

NEW STOCK FOR FALL AND WINTER!

W. H. MOORE, MERCHANT TAILOR, Main St., Danville, Ky.

THIS is to give notice to my old customers and all others concerned, that I have returned and opened my Fall and Winter Stock of Goods, which will be found on inspection to be by far the Largest and Best stock ever brought to this market. My supply of

Cloths, Cassimeres and Vestings, Embraces a great variety of different styles, and all of superior quality. I have also a very select assortment of

Ready-Made Clothing, Which is stocked with great care, and with especial reference to the quality of the goods and workmanship. Also, a very superior stock of

Gentlemen's Furnishing Goods, Including Shirts, Underwear, Collars, Cravats, Scarfs, Hosiery, and everything else in the line. A superior lot of latest style HATS.

ALL of which I offer for sale on as favorable terms as the same quality of Goods can be purchased anywhere.

W. H. MOORE. Sept 15, '54

NEW FALL AND WINTER GOODS, L. DIMMITT

RESPECTFULLY calls the attention of purchasers to the superior stock of Staple and Fancy Dry Goods which he is now opening for the Fall and Winter Trade. His

Dress and Fancy Goods Will be found to embrace the latest styles of Silks, Delaines, Merinos, Plaids, Cassimeres, Poplins, &c., together with a fine stock of

Laces, Ribbons, and Embroideries, Hosiery, Gloves, And all other Goods for Ladies' wear. Also, a large stock of the very best quality.

Goods for Gentlemen's Wear, Staple Goods of every kind, Hats and Caps, and everything else in the line. In addition to the above I have a well assorted and handsome supply of

CARPETS and OIL CLOTHS, Selected by one of the best judges in Philadelphia, and embracing many beautiful patterns.

My entire stock I think will compare favorably with any in the city, either in beauty, variety or quality; and I continue to sell at low prices for cash or on time to punctual dealers. I can make it to the interest of purchasers to buy from me.

L. DIMMITT. Sept 15, '54

NEW STORE, Entire New Stock of Goods FOR FALL & WINTER.

W. S. HICKMAN, AT the Store Room of Dr. T. W. Jackson, on Main street, next door to the old Post Office stand, has just opened the largest, finest, handsomest and cheapest stock of GOODS

than any other in the city, consisting of all the different styles, fashions and descriptions of Ladies' and Gentlemen's Wear—such as

DRESS SILKS, Beautiful Plaid Silks, full style; Elegant Striped do; Plain de Soie do; Plain Black do; Fine Seawash do; do; do.

DRS. I. WESTERFIELD & SON.
HAVING located in Shelbyville, Ky., under their professional services to the afflicted. They will give special attention to the treatment of
CHRONIC DISEASES.
The Senior partner has given his undivided attention to the practice of Medicine for the last 28 years. In addition to his regular course of reading, he studied and practiced for three years in conjunction with the
Indian Doctor, Richard Carter, Sen.
Formerly of Shelby County, Ky., from whom he obtained all those valuable recipes and formulas for the preparation of his peculiar remedies, which have proven so eminently successful in the treatment of
Chronic Diseases.
In the most uncomplicated diseases, where a carefully written description is sent them, (non-rem.) they will send medicines and directions promptly by mail.

BOYLE FARM FOR SALE.
I wish to sell MY FARM, lying in Boyle County, immediately on the Lebanon Turnpike, 2 miles from Danville. It contains about 56 acres. There is on the place a good and comfortable Dwelling-House, large enough for the purpose of a tavern. Attached to the premises is a first-rate MARBLE YARD, with a good run of water. Also, a good SAW and GRIST MILL, which runs sometimes half the year. There is an abundance of the very best Water on the place, and in fact everything necessary to comfort and convenience. I have also adjoining this place, 214 acres of good Knob Land, which I will either sell with the house place or separately, as desired. Terms accommodating.
JAS. M. BYERS.
june 23, '54, 3m

Boyle County Farm for Sale.
THE subscriber having determined to remove West, wishes to sell his FARM, containing 306 acres.
It lies 8 miles West of Danville, between the Perryville and Lebanon turnpikes. The Farm is a good state of cultivation and well adapted to stock raising, having a sufficiency of wood and water. It is a desirable place to say more, as any one wishing to buy, will see for themselves. For terms apply to the subscriber.

Having thoroughly provided himself with every necessary, and being desirous to merit and receive a liberal share of the public patronage.
W. A. HARNESSE.
Danville, apr 14, '53, 1f

DR. J. B. WHITE,
DANVILLE, KY.
(LATE OF CRAB ORCHARD.)
THE undersigned respectfully announces to the citizens of Danville, and community generally, that he will practice Medicine in conjunction with the Water Cure treatment, in such cases as may seem practicable to his mind. By a union of the two systems, he has enabled himself to treat both the Acute and Chronic forms of disease with much medicine and with much greater success, than with either employed separately. In no one disease has the success of the joint practice proved its superior efficacy and unparalleled success, as it has in
CONSUMPTION.

I assert the curability of Consumption, knowing too that this will be regarded as fiction—It being an almost universal belief that Consumption cannot be cured. What cure Consumption? Even so, I do not wish to assume either arrogance or presumption, when I declare my ability to control and cure a large majority of the cases of clearly developed Pulmonary Consumption, varying under fifty years of age.
Hereditary predisposition to Consumption has been and is yet considered a cause of the most formidable character—a cause which no cure or treatment can avert, and one which who have unfortunately inherited must feel the blighting influence of. The fallacy of this opinion I feel prepared to prove, both from reason and the practical results in a variety of cases which have fallen under my observation within the last twenty years.
In a case of Consumption with a charge he made for medical services until the patient is fully satisfied of a progressive improvement, except for consultation fees, (which is \$10 in advance), nor for that, unless actual treatment is entered into.
For the information of those at a distance who may desire to place their selves under my treatment, I can state that I do not wish to board and all the necessary attention on reasonable terms, at the City Hotel.
OFFICE at the City Hotel, where we will be pleased to see all who may favor us with a call.

BLACKSMITHING, WAGONS—PLOWS!
THE undersigned is prepared, at his shop, on Fourth street, in Danville, to do all kinds of
BLACKSMITHING, and all kinds of Repairing, &c., in that line.
He keeps on hand, also, all kinds of the very best STEEL PLOWS, used by the Farmers in this section of country, manufactured by himself, and of the finest materials.
Connected with his Blacksmith Shop, he has also a WAGON SHOP, at which is manufactured the best article of Two-Horse Wagons and Carts.
He guarantees that his work shall be well done, and of the best materials in the shortest possible time, and on such terms as shall be satisfactory to the public. Having permanently located himself, he hopes by a strict attention to his business, and every reasonable effort on his part to please his customers, to merit and to receive a liberal share of the public patronage.
J. B. MCNEILL.

OPPER TIN, SHEET-IRON AND STOVE STORE!
GEO. CUDDEP
TAKES this occasion to thank the citizens of Danville and the surrounding country for the liberal patronage he has received. He still continues the manufacture of
OPPER, TIN AND SHEET-IRON WARE,
in all its various branches, at his old stand, a few doors above the City Hotel, where he is now prepared to manufacture to order on short notice and at the lowest prices. Merchants will be supplied with Tin-Ware at such prices as will enable them to make large Profits.
House Gutters, Roofing, &c., done in the most approved manner, of the best materials. STOVES—all kinds—kept constantly on hand, and sold on the most reasonable terms.
The subscriber hopes, by a strict attention to business, good work and moderate prices, to always merit a share of public patronage.
GEO. CUDDEP.

BATTERTON HOUSE
LIVERY AND SALE
Stables.
THE subscribers having leased the STABLES attached to the BATTERTON HOUSE for a term of years, they are again prepared to accommodate the public in their line. They have been engaged in the Livery Business in this place for several years, and having given general satisfaction, they hope they will again receive a fair share of public patronage. They intend keeping good
Hacks, Buggies, Harness and Saddle Horses for Hire.
Also, Horses Bought and Sold.
We also intend giving our special attention to The Breaking and Breaking of Horses. Thankful for past favors, we hope a continuance of the same.
GEO. G. CARPENTER, WILLIAM RICHARDS.
P. S. Horses and Buggies belonging to the Stable are expected to be returned to the Stable, and not to the house.
